

Product Line Card

Low Voltage

- Switchboards
- Automatic Transfer Switches
- Low Voltage Switchgear
- Panelboards
- Industrial Control Panels
- Motor Control Centers

Medium Voltage

- Metal Clad Switchgear
- Metal Enclosed Interrupter Switchgear
- Automatic Transfer Switches
- Gas Insulated Switchgear

Critical Power

- Power Distribution Units
- Remote Power Panels
- Static Switches

Product Standards

- UL 891 Switchboards
- UL 1008 Transfer Switches
- UL 1008S Static Transfer Switches
- UL 67 Panelboards
- UL 1558 Low Voltage Switchgear
- UL 845 Motor Control Centers
- UL 508A Industrial Control Panels
- ANSI/IEEE C37.20.2 Metal-Clad Switchgear
- ANSI/IEEE C37.20.3 Metal-Enclosed Interrupter Switchgear
- ANSI/IEEE C37.20.9 Metal-Enclosed Switchgear Rated 1kV to 52kV Incorporating Gas Insulating Systems
- IEC 62271-200 AC Metal-Enclosed Switchgear and Controlgear Rated 1 kV to 52kV

Maverick Power Products & Solutions

Why Us

At Maverick Power, we are committed to delivering high-quality, custom power distribution solutions with the speed and reliability our customers' demand. We understand that in today's competitive market, compromising on quality, customization, or delivery time is not an option. That's why we have built our processes to ensure you get all three—without trade-offs.

We achieve this by optimizing every stage of our operation, from quoting and engineering to inventory, production, quality control, and products. Our integrated approach allows us to streamline workflows, enhance efficiency, and maintain the highest standards of excellence.

With Maverick Power, you can expect:

- **Precision and Quality**
Rigorous quality control ensures every product meets or exceeds industry standards.
- **Customization**
Tailored solutions designed to fit your exact specifications.
- **On-Time Delivery**
A commitment to meeting deadlines without sacrificing quality.
- **Expert Support**
A knowledgeable team dedicated to providing exceptional service and technical expertise.

When you choose Maverick Power, you're partnering with a company that refuses to settle for less. So you don't have to. Let us power your success with solutions built to perform.

Market We Serve

- Data Centers
- Oil & Gas
- Healthcare
- Industrial and Commercial
- Municipal
- Government and Defense
- Renewable Energy

Services We Provide

Engineering Expertise

Maverick Power engineers design every project as a fully integrated system, ensuring it meets strict standards, aligns with the building's design, and complies with all relevant code requirements. Our engineers work with speed and agility to design around supply chain issues to ensure we meet your timeframes. You get the right solution for your application every time, on time.

Field Service & Product Support

Maverick Power understands that uptime is critical to our customers' success. Our nationwide team of expert field technicians provides comprehensive support, including startup, commissioning, training, proactive maintenance, and extended warranties. With thousands of replacement parts in stock, we are committed to maximizing system reliability while minimizing the total cost of ownership.

Project Management

Maverick Power Project Managers start every project off right with a comprehensive scope review and project timeline. They then oversee every phase of the project lifecycle to keep projects on track while providing timely updates.

Products

We offer a complete line of low and medium voltage equipment to power any facility.
